

ABOUT

Chiara Ciccarello was born in Sicily and graduated from the University of Catania with a Master in Architecture and a piano diploma at the Music Institute Vincenzo Bellini. In 2012 Ciccarello moved to Berlin, where she has been working as an architect before deciding to dedicate herself to drawing and animation. The work of the artist focuses on the narration of intimacy of feelings and bodies, and researches an expression of hedonism free from any prejudice of gender and sexual identity. She created animation for theatrical scenography, music video-clips and documentaries. She has been exhibiting in Germany, Italy and Japan.
